GLD
Quick Start Mixing Guide

For the new user or guest engineer to start mixing with GLD. It assumes a mixer already configured for the show. To learn more about configuration, memories and advanced functions read the on-screen Help Manual and User Guide AP8561.

❶ See where Input and Master **Faders** are by pressing Layer keys A,B,C,D and reading the displays
To change the strip assignments use the **Setup/Control** screen
Alt View

Press **Alt View** to view channel or socket numbers or fader dB value in place of Name. Set option in **Setup/Control** screen

❷ See how the **Sockets** are patched using the **I/O** screen.

To change the socket assignments touch and select from drop-down menu
